Commissioner for Patents

Dear Sir:

Enclosed is a Certificate of Correction submitted under the provisions of 35 U.S.C. § 254, to correct errors of the Patent and Trademark Office in the printing of the above-identified U.S. Patent. The omitted reference to U.S. Patent No. 6,494,614 to Hu et al. is clearly attributable to the USPTO in that

JUN 06 2006

the reference was submitted in an Information Disclosure Statement filed on March 18, 2004 and the Examiner expressly relied upon the same reference to reject certain claims in the Office Action dated November 22, 2004.

In addition to the errors of the Patent and Trademark Office, a review of the patent has revealed the presence of errors attributable to applicants/patentees, which however are of a minor and self-evident character, as listed below:

Column 8, line 31: "seventh 107" should be -- seventh layer 107 --

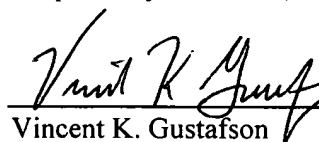

Column 10, line 11: "ensures" should be -- ensure --

Column 10, line 46: "detection regions 139A-139t" should be -- detection regions 139A-139N --

Column 14, lines 63-64: "each device layer of plurality of device layers" should be -- each device layer of the plurality of device layers --

While these errors are not of a serious enough nature to warrant a Certificate of Correction, the patentee nevertheless wishes to bring same to the attention of the Patent and Trademark Office, so that same is made of record in the file of this patent.

Respectfully submitted,

Vincent K. Gustafson
